Number of Prosecutors by Cadre

# Prosecution Data Report

Generated Summary:

In the given dataset from January 2024 to October 2024, I have analyzed and summarized the monthly trends of public prosecutors categorized as Deputy Director, Assistant Director Public Prosecutor, Additional Public Prosecutor, Assistant Public Prosecutors, ADPP Prosecutors, Additional Public Prosecutors Prosecutors, and Assistant Public Prosecutors Prosecutors.

Overall, it is observed that the number of public prosecutors in each category fluctuates across different months, with a slight increase in the number of prosecutors towards the end of the year (October 2024).

Here are some key insights based on the data:

**Deputy Director:** The number of deputy directors remains relatively stable from January to October 2024, with only slight fluctuations. In July, there is a notable decrease in the number of deputy directors compared to the previous months.

**Assistant Director Public Prosecutor:** There's a gradual increase in the number of Assistant Directors from January to October, with a significant rise observed in September and October.

**Additional Public Prosecutor:** The number of Additional Public Prosecutors follows a similar trend as the Assistant Director Public Prosecutor, with a slight decrease in February and March followed by an increase from April to October.

**Assistant Public Prosecutors:** There is a steady increase in the number of assistant public prosecutors across all months, except for a small drop in January compared to December 2023.

**ADPP Prosecutors:** The number of ADPP Prosecutors exhibits a fluctuating trend throughout the year, with an increase observed from June to October.

**Additional Public Prosecutors Prosecutors:** A consistent upward trend can be observed for this category, starting from January and reaching a peak in October 2024.

**Assistant Public Prosecutors Prosecutors:** The number of assistant public prosecutors prosecutors displays an increasing trend from January to October, with some minor fluctuations along the way.

In summary, the data reveals that there is a general increase in the number of public prosecutors over the period analyzed, with certain categories showing more significant rises than others. Additionally, the data suggests a possible reallocation or promotion of resources within the prosecutor ranks during specific months (July for Deputy Director and September/October for Assistant Directors, Additional Public Prosecutors, and Additional Public Prosecutors Prosecutors).
